In an economic context marked by an uninterrupted growth and a cleaned up environment, the Algerian industrial potential should nowadays show it self in order to win in notability and competitiveness. Subcontract is so in our country; insufficiently known and improperly used.

To boost the subcontract, there is a need of a demonstrative reference with the purpose of better introducing and promoting its development

In that aim, the WTCA “World Trade Center Algeria” in partnership with the BASTP “Algerian Stock Market of Subcontract and Partnership” decided to create ALGEST an event devoted to subcontract.

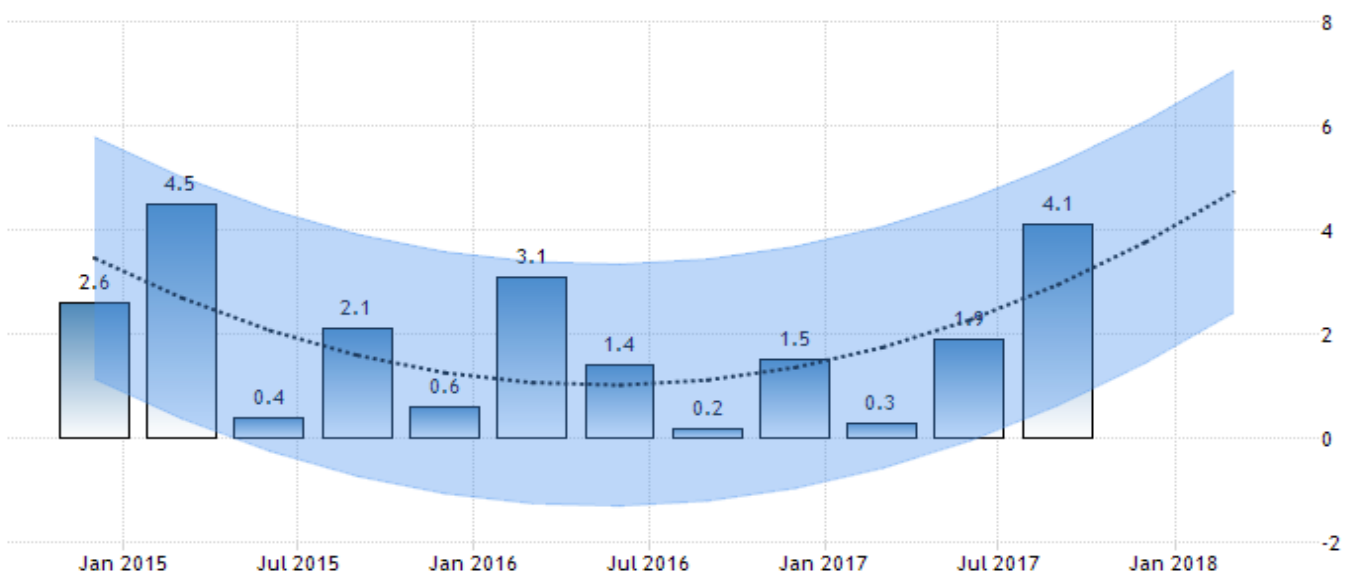

In a same place, once in the year, ALGEST comes as an industrial crossroad, a date Business opportunities and a wide opened economic window.

During four days, this exhibition will link major institutions of the related field: ministries, stock markets, labor unions as well as a considerable number of National & International firms from different sectors and activities that raise the same domain; subcontract

Will be in honor the following sectors:

- Mechanical Industry & Engineering
- Electrical & Electronic Industry
- Rubber & Plastic Industry
- Industry of Paper
- Chemical Industry
- Industry of Glass & Ceramic
- Renewable Energy
- Machines & Equipments
- Energy & Gaz
- Services linked to Industry

ALGEST will, in addition be accompanied by thematic animations and B2B meetings to enhance the impact that this exhibition will generate.

Date:        /        /

- **Many Partnership agreements were signed on the sidelines of the previous editions in various sectors mainly in the Mechanical Industry**

- **Local SME's are the driving force of the industrial activity in Algeria, therefore the development plans of public & private companies must be directed towards efficient subcontracting .**
